Malang, East Java, Indonesia

Summary

My current status as a student in Malang fuels my excitement to showcase my diverse skill set and seek additional experiences in my field. During my internship at Axel Bit Training Centre, I played a crucial role in a LAN network design project, involving tasks such as cabling, routing, switching, firewalling, and wireless network configuration. My professional journey also includes leading internal and external web development projects within the campus environment and successfully completing freelance projects, highlighting my versatility and dedication to delivering high-quality work. Proficient in technologies like React JS, JavaScript, Vue JS, SQL, PHP Laravel, Java, and Android, I exhibit adaptability to diverse project requirements. Some noteworthy projects in my portfolio include Ngunduh, an efficient file-sharing platform, GooseFlix, a comprehensive movie search website, and the creation of an SPP payment website to streamline school tuition fee payments. Armed with a solid skill set, I am well-prepared to contribute to challenging projects in a professional capacity.

Experience

Ngunduh
Freelance (Self employed)
Aug 2023 - Present (7 months)
